

CHAMBER OF INTERIOR ARCHITECTS OF TURKEY

The Chamber of Interior Architects of Turkey is one of the 23 chambers within the Union of Chambers of Turkish Engineers and Architects. The Chamber began its activities as an association in 1954, and in 1976 became a chamber as one of the first Interior Architecture professional establishments in the world. The Chamber aims to guide graduates of the 32 Interior Architecture Departments in Turkey and Northern Cyprus, who work to master the skill of combining human physiology, psychology, environmental behavior and structural knowledge to ethically create aesthetic and functional spaces. The Chamber of Interior Architects of Turkey will be presenting the functions of the chamber, laws and regulations in the profession, and other related issues.
