08 March 2010/13:30-15:30/M01

## **“PRACTICING INTERIOR ARCHITECTURE IN IZMIR” PANEL**

In the scope of the course of Applied Workshop in Interior Architecture and Environmental Design II, a panel on “Practicing Interior Architecture in İzmir” has been organized at Izmir University of Economics for Interior Architecture and Environmental Design 4th grade students with the participation of interior architectures in İzmir, Burcu Yazgan, Dilara Gür, Filiz Ultav, Semih Güven, Serkan Ergün and Zeynep Edes.

The participants underlined that interior architecture profession had to be cared of and they made some suggestions for the development of this profession. The speakers stated that time and environmental factors had to be taken into consideration about the job potential and quality. Interior architectures shared their experiences about opening and executing an interior architecture office and answered the questions of the students, they also gave some advices to the students about what they can perform after their graduation.
