9 MAY 2012
17.00 - 18.00
PLACE: DO22

DEPARTMENT OF INTERIOR ARCHITECTURE AND ENVIRONMENTAL DESIGN

SEMINAR BY

Asst. Prof.Dr. Orçun Kepez

Mapping Environmental Stress in Campus Environments

Asst.Prof.Dr.Orçun Kepez, an instructor in the Department of Interior Architecture and Environmental Design in Kadir Has University -as well as the head of that department- came together with fourth year students of the Department of Interior Architecture and Environmental Design in Izmir University of Economics on 9 May 2012. Having participated Applied Workshop in IAED II course, Kepez, firstly talked about main stress factors in environment and gave information about the awareness about environmental stress and its link to design within his seminar entitled “Mapping Environmental Stress in Campus Environments”. Workshop executed by Kepez and his assistant Ece Altınbaşak took place in three stages. As the first stage,the students walked around the campus individually and defined the problems in the categories given before. Then they created individual maps, which they reassembled on a common larger map. And then they exhibited their work following the seminar, “Design Research in Healing Environments” given by Kepez.
